ABOUT MCCOY

MCCOY was created in 1993 to be the youth-services intermediary organization in central Indiana. In this role, the organization serves as an *Advocate, Capacity-BUILDER, Convener* and *Resource* for those who serve youth. We have accomplished much in the past 22 years and look forward to the next 20 years!

As central Indiana’s most trusted *Champion for Youth*, MCCOY helps ensure that every young person has innovative opportunities to thrive, learn, engage, and contribute.

- As an advocate, MCCOY unifies individuals and organizations to promote youth voice in public policy.
- As a capacity-builder, MCCOY provides tools and trainings for youth workers to build skills and effectively serve young people.
- As a convener, MCCOY gathers passionate community members in partnership to build solutions for youth to thrive, learn, engage and contribute.
- As a resource, MCCOY connects young people and their families to the programs they need to achieve their dreams.

With those perspectives in mind, we’re excited to publish, for the 20th year, in print, available as a download on our website & as a mobile app, our annual Youth Activity Directory.

We produce this resources with one key goal – to help families, youth, and caring adults find the best programs, the programs that help children and teens develop the skills, knowledge, and attributes they need to be productive and healthy.

2016 YOUTH ACTIVITY DIRECTORY

Using the Youth Activity Directory

Whether you're a young person, a youth development professional, or a caring adult, this directory is a great resource for you:

- Find out about youth programs and organizations that work with youth.
- Look up volunteer and career planning opportunities.
- Check out what's happening around the city for young people.
- Get information about summer camps.

If you're a parent or an adult working with a young person, invite youth to share in your youth activity exploration – the best program for them will usually be the program that they've helped to pick.

Find the right program for you

Picking youth programs can be a challenge for parents and youth. As you research opportunities and services, there are two key questions to ask:

- Does this program reflect the interests and abilities of my child?
- Is this a high-quality program?

The first question can be answered through open conversations with your child and the program staff. The second question, the question about quality, can be a little bit trickier. A high-quality program is safe, has a welcoming atmosphere, fosters positive interaction among youth and staff, and invites youth to make decisions and engage actively with program activities. These are all topics you can discuss with program staff or assess by visiting a program before you register.

To find out more about this directory or have your organization listed, please contact MCCOY at info@mccooyouth.org or call 317.921.1266.

CHILD CARE

Carefinder: secure.in.gov/apps/fssa/carefinder/index.html

HOW TO FIND A GOOD ONE: Ask if it is licensed, registered or unlicensed. Then count children to confirm. If there are more than 6 unrelated children, the day care MUST be licensed. Ask for a copy of license. Check state regs to see what type of health & safety practices are required. Check to see if it is in the Paths to Quality program that ranks day cares. Make sure you feel comfortable. Make unannounced visits & stay as long as you can. Ask who else will be in the home when children are there. Ask for current & past parent references. Use the state Carefinder website or IN Assoc for Child Care Resource & Referral 800.299-1627. Continuously re-evaluate. Use either or both of the next two referral organizations.
