USING THE 2023 YOUTH ACTIVITY DIRECTORY

Whether you are a young person, a youth development professional, or a caring adult, this directory is a great resource for you. With the help of this resource, you can:

- Find youth programs and organizations that work with youth.
- Look up resources, volunteer, life skills, and mentors.
- Check out what's happening around the greater Indianapolis area.
- Find information about summer camps and summer jobs.

If you're a parent or an adult working with a young person, invite youth to participate in exploring this resource – the best program for them will most often be a program they've helped pick.

FINDING THE RIGHT PROGRAM

Picking youth programs can be a challenge. It's more than just campfires and sing-alongs. Camp lets children roam & play in a way they rarely do in their own neighborhood. It takes them away from computers, TV & other high tech time, swapping them for conversation, fun & games. Camps are no-parent zones. Youth learn how to separate & become resilient & independent in a safe way. As you research opportunities and services, there are two key questions to ask about ANY program you sign your youth up for:

- Does this program reflect the interests and abilities of my child?
- Is this a high-quality program?

The first question can be answered through open conversations with your child & program staff. The second question can be a little bit trickier. A high-quality program has history, is safe, has a welcoming atmosphere, fosters positive interaction among youth & staff & invites youth to make decisions & engage actively with program activities. These are all topics you can discuss with program staff or assess by visiting a program before you register.

ABOUT MCCOY

MCCOY was created in 1993 to be the youth-services intermediary organization in central Indiana. In this role, the organization serves as an advocate, capacity-builder, convener and resource for those who serve youth. We have accomplished much in the past 29 years and look forward to the future!

As central Indiana's most trusted champion for youth, MCCOY helps ensure that every young person has innovative opportunities to thrive, learn, engage, and contribute.

- As an advocate, MCCOY unifies individuals and organizations to promote youth voice in public policy.
- As a capacity-builder, MCCOY provides tools and trainings for youth professionals to build skills and effectively serve young people.
- As a convener, MCCOY gathers passionate community members in partnership to build solutions for youth issues.
- As a resource, MCCOY connects young people and their families to the programs they need to achieve their dreams.

With these perspectives in mind, we have been producing this book since 1997. A pdf is available to download on our website. We have a digital version as well (YARD) for families to search for programs and resources.

We produce this resource with one key goal – to help families, youth, and caring adults find the best programs, the programs that help children and teens develop the skills, knowledge, and attributes they need to be productive and healthy.

Mental Health Crisis: Instead of dialing the current 10-digit National Suicide Prevention Lifeline, call or text 9-8-8. The new 988 Suicide & Crisis Lifeline is designed to be a memorable, quick number to connect people who are suicidal or in mental health crisis to a trained mental health professional. 988 routes callers to the Nat'l Suicide Prevention Lifeline. This code is available across the U.S. You will be connected to trained counselors who will listen, understand how your problems are affecting you, provide support, & connect you to resources if necessary. The current Lifeline number will always remain available to people in emotional distress or suicidal crisis.

— YOUTH EMPLOYMENT —

If we are aware of organizations hiring youth it is noted in the program listing. Search "HIRE" to find those listings.

ABC'S OF A JOB

1. Start looking BEFORE school gets out.
2. Youth needs to call NOT mom, etc.
3. Dress appropriately for interview-clean clothes, NOT jeans/tshirt; NO GUM CHEWING; speak clearly & respectfully
4. If you decide you don't want the job LET THEM KNOW so they can find a replacement.
5. Be at work ON time, EVERY day.
6. Do NOT use your cell phone when you are working. This is a responsibility.

Summer jobs can sometimes lead to school year jobs-think about the time you need to do your 1st job-SCHOOL & hours you can handle if you want to work part time.

While you can work at age 14, many employers do not hire that young unless you are REALLY outstanding in presenting yourself.
